SPECIAL MESSAGE STRIP

Qty.	Cat. No.	Description
	DSM	SPECIAL OF THE MONTH
	DTA	TOOLS AVAILABLE IN
	DTD	TOOL DEPARTMENT

CHANNEL RACK: Designed to hold various size graphics flush mounted on pegboard, slat wall, or suspended overhead with separate hardware kits. This wide plastic extrusion consists of 9 rows of standard 1-1/4" (32 mm) channel on two sides. Easy-to-handle two foot and one foot widths are versatile for topping off any pegboard or slat wall expanse, aisle gondola or end cap display.

HEADERS: For use with Large pictures. Available as product category headers and "Better Ideas" slogan.

PICTURES: For use overhead across pegboard or slat wall displays or over counter area.

DESCRIPTIONS: For optional use with large pictures. Provides catalog number and/or name of item(s) featured in picture. Standard 1-1/4" (32 mm) channel also allows you to substitute a custom sales message by using a commercially available 1-1/4" (32 mm) lettering kit.
