

Proudly Made in the U.S.A. Expanded Family of Multi-Track Pliers!

Multiple Reasons to Choose Malco

- **Undercut Tongue & Groove Adjustment** will not slip! Jaws are held securely in selected position.
- **PermaLock® Fastener** eliminates nut & bolt failure.
- **Heat Treated Right-Angle Teeth** grip better, last longer.
- **No Pinch Point.** Lower jaw and reinforcing rib prevent handles from touching.
- **Long, Vinyl-Cushioned Handles** give powerful leverage with a gentle spread for easy one-hand operation.

Reinforcing Ribbed Edge
minimizes stress breakage.

RUGGED V-JAW

V-shaped jaw creates more points of contact on pipe and round stock for stronger bite and more control.

STRAIGHT JAW

Ideal for gripping square or hex fasteners plus small diameter pipe, conduit and cable connections.

Thin Design, Tempered Steel Halves allow access in confined spaces where other pliers & wrenches won't go.

New
6-1/2"

Specifications

Catalog Number	Description	Overall Length	Jaw Type	Jaw Length	Jaw Capacity	Jaw Adjustments	Handle Span	Net Weight
MT6	Multi-Track Plier	6-1/2 in. (165 mm)	Straight	13/16 in. (20.5 mm)	7/8 in. (22 mm)	5	1-11/16 in. (43 mm)	6 oz. (170 g)
